

DATA GOVERNANCE

The Journey always travelled

UTOPIAN VIEW

Governance Board set up

Authoritative and senior enough

Stewards assigned

Understand their respective roles and responsibilities

Fully supported framework

Policies and Standards adopted

Remediation done

Identified, documented and resolved

Root cause identified and implemented

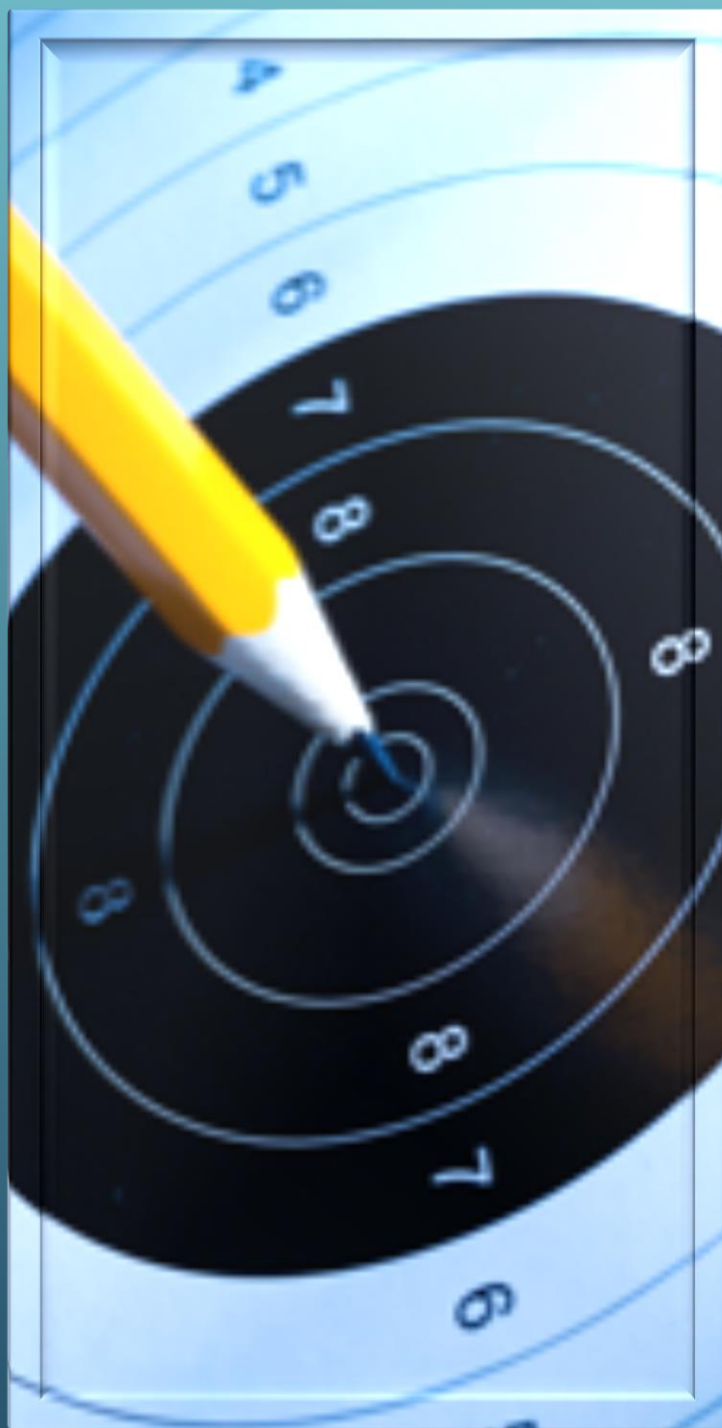

Identified, Documented, and resolved

Communication flows to organization

All in organization are communicated to and understand

Metrics and monitoring

Generated and reviewed for improvements

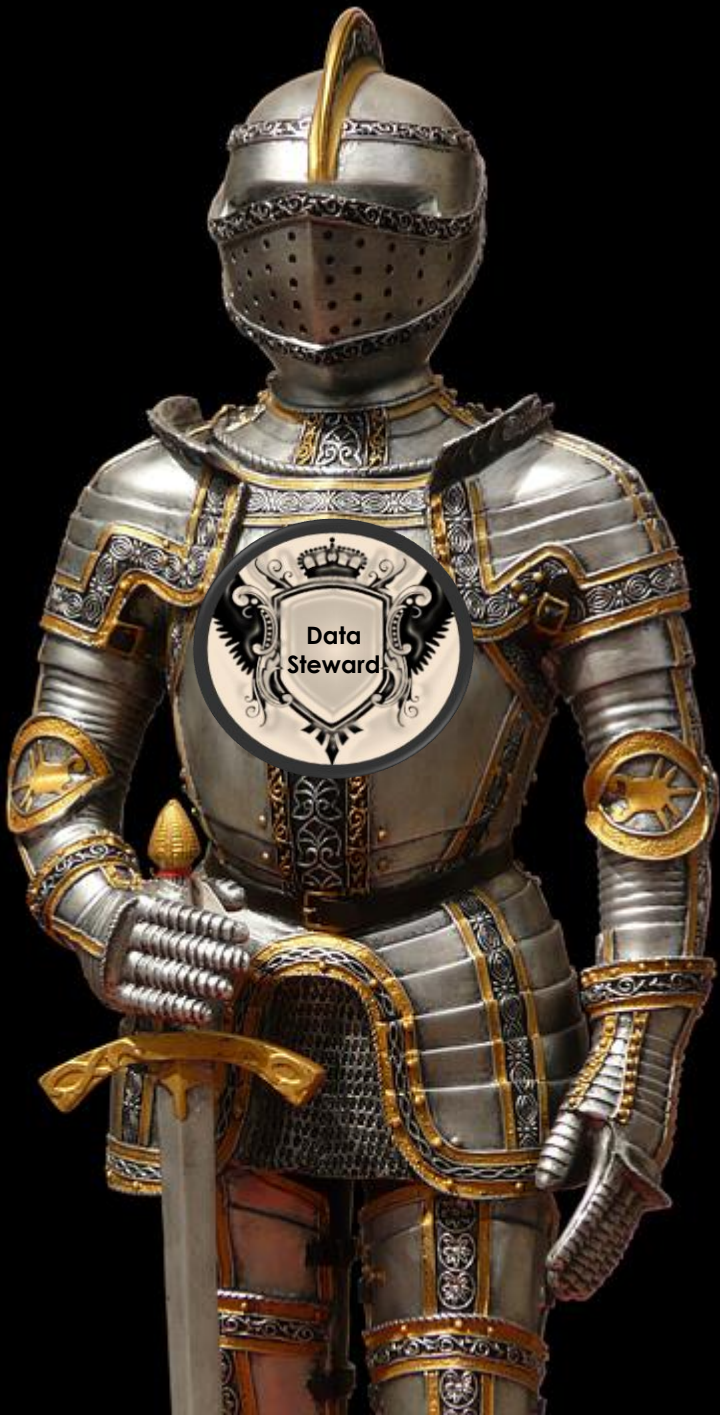

WHAT IF NO ONE COMES?

- Support
 - Adds to longevity of the program
 - Allows for engagement
 - Lessens need for policies
- Vision and Objectives
 - Reduces side trips
- Soft skills vs. hard skills
- Alignment
- Communication
- Support...support...support

DATA STEWARDSHIP

- Engage Stewards
 - Clear understanding of role
 - Speak in their terms (profiling)
- Have a day job
 - How does it help them
- Formalize their role
 - Approved and communicated
- Support Model
 - How will they be supported

WHY MEASURE & MONITOR

- Control is to make certain:
 - It is managed
 - It is measured
 - It is monitored
- Measure vision
- Measure objectives
- Measure success not just non compliance

THE EFFECTS OF TIME ON GOVERNANCE

- Organizational changes will affect support
 - Strong vision
 - Communication
 - Breadth of support is needed
- Lack of measures will slowly dwindle the value of program
- Be part of the corporate onboarding practices
- Communication should be purposeful and meaningful
 - Lunch and learns to engage
 - Steward trainings should be annual
 - Stewards should be involved at senior level

Q & A
